Supplemental Amendment A: REMARKS

Director of the U.S. Patent
and Trademark Office
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Office Action of October 31, 2005, a response being due with a shortened statutory period of response set to expire on December 31, 2005, and in response to a Notice of Non-Compliant Amendment, having a response due by February 19, 2006, please enter the present amendments and consider the following remarks:

Applicant respectfully re-submits the present Supplemental Amendment "A" in a revised format in response to the Notice of Non-Compliant Amendment of January 19, 2006. The Examiner indicated that the format of the Amendment should comply with 37 C.F.R. § 1.121. Applicant respectfully contends that the present amendment is now in compliance with the required amendment practice. The Examiner noted that Page 4 of the specification was missing. Applicant has submitted the contents of Page 4 by amendments to Paragraphs [0008] through [0010], according to the formalities of specification amendments under 37 C.F.R. § 1.121. This new format of Supplemental Amendment "A" is now in the proper condition for consideration. The present supplemental

amendment has been filed before expiration of the shortened statutory period for response such that a fee for extension of time is not currently due.

Upon entry of the present amendments, original Claims 1 - 20 remain in this case. Reconsideration of the rejections, in light of the forgoing amendments and present remarks, is respectfully requested. The present amendments have been entered for the purpose of placing the application into a proper condition for allowance.

In the Office Action, it was indicated that the disclosure was objected to because of various informalities. In particular, original page 4 of the specification was missing from the materials reviewed by the Examiner. Additionally, there were various typographical errors found on pages 10 - 15. Importantly, the Examiner has indicated that Claims 1 - 20 would be allowable upon the correction of the various informalities herein.

In reply to the Official Action, Applicant has revised the specification in accordance with the Examiner's suggestions with respect to language found on pages 10 - 15. Additionally, Applicant is enclosing herewith a replacement page 4 in the form of amendments to Paragraphs [0008] through [0010] by inserting the contents of Page 4 in the relevant paragraphs.

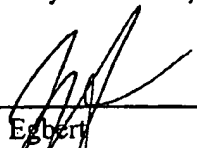

Applicant notes that the reference numeral "120" was repeated in paragraphs [0041] and [0042]. As such, Applicant has revised the element 120 in paragraph [0042] to be "122". Figure 7 of the drawings has been revised so as to reflect this correction.

On this basis, Applicant contends that Claims 1 - 20 are now in a proper condition for allowance. Reconsideration of the rejections and allowance of the claims at an early date is earnestly solicited. Since no new claims have been added above those originally paid for, no additional fee is required.

Respectfully submitted,
